“Playing the Fields”... the subtle energy fields...

Vol. 1, No. 2
September 2008

Color, Sound and Light

Printed on recycled paper.

At left. Jade Energy Unit uses Chinese face reading principles to match your energy frequencies.

At right. The Derma Ray is a cold laser which catalyzes repair and rejuvenation.

Veronica Sauter at work on Nevis (British West Indies). The Jade resonance device combines color, sound, light, and gemstone frequencies to rapidly heal ulcers on this young woman's legs.

This same equipment can be used for erasing wrinkles and toning sagging skin. Read more under "Anti-Aging" on page 2, or visit our website (www.fullspectrumenergymedicine.com) for more detailed information.

Look inside for new offerings for achieving optimal health.

Now available here.

- Non-surgical facelift
- Hair regrowth
- Sauna (up to 1/2 hour)

Inside this issue:

Detoxification	2
Thyroid Health	2
Matrix Energetics	2
Anti-Aging	3
Oral Health	3
Sustainability	3
Monastic Medicine	4

Continuing Education

Spring found some of you enrolled in a non-credit class at Temple University's Fort Washington campus. With a solid understanding of the importance of minerals

and pH balance and proper food combining, along with the basics of detoxification protocols, you are well on your way to enjoying the benefits of natural healing.

Together with subtle energy healing, higher frequencies foster well-being and contentment.

"Nature and Nurture" class ran in June 2008

Detoxification

Unda Remedies from Belgium here.

Did you know? 19% of people surveyed trust homeopathy. That's 60 million Americans.

To avoid a healing crisis, Unda numbered remedies act as a preliminary drainage, thus averting some of the unpleasant side-effects known as a 'healing crisis.'

We are preparing a booklet on dry skin brushing and will let you know

when it is available.

Lymphatic Drainage done either manually or using the Jade Energy devices are perfect purification companions.

Another great approach is using a sauna. You can come to our Blue Bell office and use the far

infrared sauna for up to 1/2 hour for a \$30 fee.

This is a sensible way to jump start your detoxification.

- Schedule a series and stay on track.
- **Call to schedule: (610) 275-3371.**

Thyroid Health Symptoms: fatigue, weight, hair loss, dry skin,

When bread makers began to put bromine into white flour in the 1950s, national thyroid health began its demise. Bromine leaches iodine from the thyroid!

Environmental toxins, including those in food and chlorinated/fluoridated water contribute to the scores of conditions which respond favorably soon after be-

ginning iodine supplementation.

Two endocrinologists who paved early inroads to a true understanding of the thyroid were Drs. Barnes and Krauz. Sadly, their work fell by the wayside for decades. Today, renewed understanding of the importance of measuring free instead of bound proteins aids in proper assess-

ment of thyroid function. Doctors looking for "normal" ranges fail to detect subclinical thyroid conditions.

A reliable index of thyroid health is a "functional blood chemistry" or saliva test. Call us about simple preliminary screening (a skin test using Lugol's solution)...**cold hands & feet .**

Matrix Energetics

Fully in keeping with the use of frequencies and waveforms for healing, we have incorporated another subtle energy technique for transformation. Developed by Dr. Richard Bartlett, a naturopath and chiropractor, it is based on the laws of quantum physics,

string theory, and morphic resonance explained by Rupert Sheldrake.

By communicating at the quantum level with the wavefronts of energy and information stored in every cell of our body and in our subtle energy field, we resonate at a higher vibra-

tion. When we vibrate at a higher frequency, we change our way of perceiving, and can easily transform past injuries and emotional traumas. Matrix provides another wave of awesome healing potential!

Anti-Aging - Non-surgical facelifts & more

Since man discovered electricity, adventuresome researchers have been using electric current for healing. While TENS units use millivoltage (one thousandth of a volt) to stimulate the nervous system, microcurrent (one millionth of a volt) holds far greater healing potential because it works on connective tissue, the

vast web that networks every organ and cell in our body.

Sagging chins, scar revision, smoker's lines on the upper lip, muscle spasms, broken bones, Bell's Palsy, balding scalps, hammer toes, chronic pain, neuropathy, to name a few, are just some of the kinds of cases which have benefitted from this therapy.

Even a small scar, possibly from a childhood injury or previous surgery impedes proper energy flow. Depending upon the position on a meridian, vital organs can be affected. Breaking up the scar tissue can improve or restore circulation, thereby rejuvenating the deficient function.

Oral Health—Light-activated toothbrush

The American Academy of Periodontology (AAP) underlines the relationship of oral health to cardiovascular health.

New technology from Japan supports dental health. When you wet the Soladey brush with water and expose it to light, its titanium core activates anti-bacterial properties.

Because it is anti-bacterial and fights plaque, it eliminates the need for toothpaste. Even better news is that over time, those stubborn tea and coffee stains fade when you use the brush.

We have the brush available for sale, and will also offer it on our webstore, currently under con-

struction. Watch for other very useful products.

The bionic mouthwash is a nanocolloidal silver which addresses the majority of bacterial pathogens which linger in the oral cavity. Remember that the mouth is the doorway to the digestive system, where toxicity begins.

Call (610) 275-3371 with questions, or if you would like a toothbrush or bionic mouth rinse..

Sustainability—local CSA listing

The concept of Community Supported Agriculture originated in Switzerland and Japan in the 1960s, but it wasn't until the 1980s that our country began to implement it. Because only 2% of the American population farm, this small group cannot provide food for our entire population.

A CSA consists of a community of individuals who pledge time and/or money to support farming locally. Produce is organic and weekly pick-ups generate interaction with like-minded people in your vicinity.

For a listing of Pennsylvania farms, go to

Monastic Medicine revives "nature cure"

The Sovereign Medical Order of the Knights Hospitaller of Saint John of Jerusalem is a Christian organization founded in 1079. It was dedicated to providing health care for the wounded in war and the sick and needy among the general public.

Unlike its military counterpart orders, the Knights Templar, Hospitallers admitted women. Florence Nightingale was a member of the order. The knights were the first to study anatomy and practice sterile technique.

Treatment provided relied on herbs, cleansing and emotional and spiritual support; they really practiced what today is known as "naturopathy."

For twenty years, Grand Master Prof. Charles Mc Williams has provided natural health care for the island of Nevis, BWI. The first monastic medicine hospital in the U.S., Abbey Hill Monastic Medical Center, a former nursing home in Hot Springs, Arkansas is undergoing renovation, and the second, Celebration Centre for

Integrated Healing, in Scottsdale, AZ is now under construction. Others are in progress in Venezuela and Ecuador.

To learn more about our mission to change the face of primary health care for those who currently have limited or no access, visit [www:smokh.org](http://www.smokh.org). **If enough people are interested, we will gladly present the history and mission of the Knights of Malta, as they were also known.**

Dame Veronica Sauter was invested into the Order in February 2008.
